COUNCIL INSPECTS ALLEYS AND SEWER

The city council and Dr. L. H. Ferguson, health officer, has been inspecting the alleys of the town and also the conditions around the septic tank.

Most of the alleys are clean and in good condition, but there are some which have been neglected and are not sanitary. They propose to see that every alley is kept clean and those who have neglected this matter should clean up before they get notice from the health department.

The septic tank dumping ground has been a city problem for years. The council expects to use considerable crude oil to keep down mosquitoes this year and will do what they can to abate this nuisance.

Mrs. M. McClanahan left Friday night for Kansas City to visit her sister, Mrs. Pearl Harman, and family. Her young daughters are visiting their grandparents, Mr. and Mrs. Chas. Thomas, near Exeter, while she is gone.

Mr. and Mrs. A. Gotsas returned home Friday night from California, where they spent the winter and spring. They made both journeys in their automobile. They were fourteen days on the road home, three of which were spent in visiting enroute, making eleven days for the trip. They had a good visit and a successful trip home.

WHOOPIING COUGH

This is a very dangerous disease, particularly to children under five years of age, but when no paragonic, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.
